My dear Dr. Bryan:

On March 17th, we received the death certificate of Velma Ellen Hamilton; as to her death you certified to have occurred on Jan. 31, 1938. The certificate also indicates that it was filed with Mrs. Nell Robertson, local registrar on March 15, 1938. Cause of death was listed "Streptococcus "H" infection".

In order that we may properly codify this certificate, it is important that ~~we have the cause of~~ death listed according to the standard nomenclature. It is impossible to classify the listed cause of death as such.

I will appreciate your informing me, what in your opinion was the primary clinical cause of death and any other contibutary clinical causes of which you may have a record.

Your attention is invited to the necessity of the prompt reporting of all such vital fact as occurrence of a death. Late reports cause confusion in our statistical recording and lead to errors and erroneous interpretation.

Your cooperation in this matter in the future will be appreciated. May I hear from you promptly?

Cordially yours,

Samuel Weissross

Gentlemen,

We are inclosing herewith a letter we recently received from Mrs. Nina Banks, wife of George Banks who passed away in Idaho Falls March 25, 1938, in which you will notice she asks that a correction be made as to the stated place of birth of Mr. Banks. The place actually being London, England instead of Seattle, Washington as was stated on the original certificate.

We are also inclosing our check for fifty cents for which you will please send certified copy of the death certificate as corrected

Please return Mrs. Banks letter as we wish to foreward it to an Insurance Company as an explaination for the discrepancy.

Sincerely yours,
McHan's Funeral Home

UNITED STATES STANDARD CERTIFICATE OF DEATH

STATEMENT OF OCCUPATION.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. Make some entry in this section for every person aged 10 years or over. If the deceased had retired from business, report the occupation prior to retirement. Children not gainfully employed may be returned as at school or at home. For a woman whose only occupation was that of home housework, write housewife in answer to Question 8 and own home in answer to Question 9. For a person engaged in domestic service for wages, however, designate the occupation by the appropriate terms, as servant—private family, cook—hotel, etc. For a person who has no occupation whatever write none.

To be complete an occupation return must state:

8.—The trade, profession, or particular kind of work done.
9.—The industry of business in which the work was done.
10.—The month and year the deceased last worked at the occupation.
11.—The number of years the deceased followed the occupation.

In stating the occupation, avoid the use of such indefinite terms as "employees," "worker," "operative," etc. Find out the particular kind of work done and return that as spinner, weaver, etc.

In stating the industry or business, avoid the use of such general terms as "store," "factory," "mill," etc. State the particular kind of store, factory, mill, etc., as grocery store, soap factory, cotton mill, etc.

Distinguish carefully the different kinds of engineers by stating the full descriptive titles, as civil engineer, mechanical engineer, mining engineer, stationary engineer, etc. Avoid the term "laborer" when a more precise statement of the occupation can be secured. Do not use the word "mechanic," but give the exact occupation, as carpenter, painter, machinist, etc. Distinguish carefully between retail merchants and wholesale merchants. A person who sells goods should be called a salesman and not a clerk.

STATEMENT OF CAUSE OF DEATH.—Cause of death means the disease, injury, or complication which causes death, not the mode of dying, e. g., heart failure, asphyxia, asthenia, etc. As principal cause name the disease or injury causing death. As related causes, name earlier morbid conditions, if any, related to the principal cause and any important complication of the principal cause. Under other contributory causes of importance, name other important diseases or injuries. Examples:

EXAMPLE I		EXAMPLE II	
The PRINCIPAL CAUSE OF DEATH and related causes of importance were as follows:	Date of onset	The PRINCIPAL CAUSE OF DEATH and related causes of importance were as follows:	Date of onset
Arteriosclerosis	1915	Attack of epilepsy	1 week ago

In Cooperation with the State of Idaho Division of Public Health

COEUR D'ALENE, IDAHO

April 25, 1938

Mrs.Pearl Dillingham
Registrar of Vital Statistics
Division of Public Health
Boise, Idaho

Dear Mrs. Dillingham:

Notice reached this office today of an error in the age and birth date as recorded on the death certificate of Mr, Floyd N. Kessey. The year 1891 should correctly read 1890, which brings the age to 48 instead of 47, as first given.

We are enclosing a new original together with the two certified copies which you prepared for us so promptly last week.

Yours very truly,

L C Krotcher MD.

Answering question 23 The Deceased had an injury which occured by his falling into a pit in a public place. As there is a lawsuit pending in this matter it is here mentioned but no commitment made on either side. Trauma is admitted as one cause of Carcinoma, and also of glycosuria. Whether or not the trauma sustained in this accident had to do with the Carcinoma or glycosuria I cannot state.
